

## Summary

Passionate and self-motivated Junior Web Developer with hands-on experience in building responsive, user-friendly web applications using HTML, CSS, JavaScript, and React. Strong understanding of UI/UX design principles and version control with Git. Completed multiple frontend projects and challenges on platforms like Frontend Mentor. Eager to learn, grow, and contribute to dynamic development teams.

## Skills

HTML, CSS, JavaScript ,React.js UI/UX

## Experience

May 2023 - May 2025

Frontend Developer (Freelance)

Self-employed / Personal Projects, Fort Abbas, Pakistan

- Developed and deployed responsive web applications using HTML, CSS, JavaScript, and React. - Built interactive projects like a contact form, conference ticket generator, e-commerce product page, and paste-sharing app. - Participated in Frontend Mentor challenges to sharpen problem-solving and design skills. - Used Git and GitHub for version control and deployed projects with Vercel. - Focused on clean code, component-based architecture, and smooth animations using Framer Motion.

## Education

2026

Government Graduate College, Fort Abbas

Bachelors in Science

Computer Science

## Projects

### Personal Portfolio Website

<https://asia-ashraf.vercel.app/>

Designed and developed a responsive personal portfolio website using React, HTML, CSS, and JavaScript. Showcases my projects, skills, and contact information with a clean, user-friendly interface. Implemented smooth animations with Framer Motion and deployed on Vercel for public access.
