PROFILE

Passionate Frontend Developer pursuing a BS in Computer Science with a background in ICS and 3 years of coding experience. Skilled in building responsive web applications using HTML, CSS, JavaScript, React, and Next.js. Experienced with Git and Linux, with a complete understanding of backend development, and eager to grow as a Full-Stack Developer contributing to real-world scalable projects.

PROJECTS

Personal Portfolio Website
2025

https://asia-ashraf.vercel.app/

- Designed and developed a responsive portfolio using React.
- Implemented smooth animations with Framer Motion.
- Deployed on Vercel.

Weather Application (Advanced Real-Time App)
2025

https://weather-app-six-mocha-2yljnsbf39.vercel.app/

- Real-time weather search with 7-day & hourly forecast.
- Voice search with microphone support.
- Dark/Light theme toggle.
- Favorites system with live badge counter.
- Debounced search input for optimized API calls.
- Reverse geocoding (Use My Location).
- Toast notifications and skeleton loaders.
- Fully responsive and animation-enhanced UI.

COLLABORATIVE EXPERIENCE

E-Stamp Management System (MERN Stack Application)

A full-stack MERN (MongoDB, Express.js, React.js, Node.js) system for managing e-stamp vendors and administrators.
